THE SOCIETY FOR SOCIAL WORK LEADERSHIP IN **HEALTH CARE**

The SSWLHC Policy Interests

Did you know the Society has a new committee for Advocacy & Social Policy? Please follow us on social media to get action alerts, education, and connections to help you advocate for social work in health care and the patients they serve. Here are some of the policy priorities we are working on:

Name

Improving Access to Mental Health Act (S.870/H.R.2035)

Partnership with NASW

- Increase the reimbursement rate from 75% to 85% for clinical social workers;
- Allow independent (i.e., not on staff with SNF) clinical social workers to bill Medicare for services to patients at SNFs:
- Broaden the definition of clinical social work services for Medicare reimbursement to include interventions to prevent, treat, and improve physical health and well-being (in addition to mental health diagnoses).

Purpose

- Ask your
 - representatives to co-sponsor (both congress and senate)

Action

Freedom to Vote Act (S.2747)

- Set commonsense standards for safe, convenient practices like early voting, automatic voter registration and voteby-mail.
- Adding new safeguards against election subversion, such as partisan efforts to remove local election administrators and harassment of poll workers.
- Ban partisan and racial gerrymandering.
- Reduce the power of special interests in our elections by ending dark money, promoting small donations, and empowering the Federal Election Commission (FEC) to uphold our campaign finance laws.

Ask your senators to support the bill

SSWLHC Policy Interests, con't

Name

Workplace Violence Prevention for Health Care and Social Service Workers Act (H.R.1195)

- Direct OSHA to issue a standard rule requiring employers to develop and implement workplace violence prevention plans.
- Employers would need to provide annual training, maintain data about risks and incidents, and conduct hazard assessments.

Action

None at this time. Being reviewed by the Senate

Grand Challenges in Social Work

NEW!! Pediatric Intensive at the October Conference

PEDIATRIC HEATH CARE SOCIAL WORK INTENSIVE

Monday October 25, 2021 8:00 AM – 4:00 PM PST

Costs: \$249

CEU's: 5 hours (pending approval)

Following a challenging year, the Pediatric Intensive will focus on topics related to resilience, health equity, Social Determinants of Health, oppressive practices and Century 21 Cures Act Open Notes. The agenda will include a presentation from CHA.

Learning Objectives

Obtain policy updates and other information from Children's Hospital Association that supports our advocacy and quality improvement efforts in the care of children and their families.

Participants will learn about leading in a pandemic and strategies for beyond the crisis. Identify bias and privilege in child protection reports and system changes needed for a trauma informed approach.

Discuss the ethics and efficacy of screening for social needs in pediatrics Understand the impact of the 21 Century Cures Act on documentation and opportunities to oppressive practices.

Crisis Standards of Care

Articles about instituting Crisis Standards of Care around the country.

As health social workers, we should be aware of the institution of crisis standards of care in the setting of the Delta variant of Covid. While crisis standards of care have been around for a while, there is some more recent discussion about how race factors into these algorithms.

Here are a few links to recent articles of the subject:

"Idaho allows rationing of medical care statewide amid surge in covid hospitalizations"
